

# PANORAMA

## NATURAL BURIAL

### Gravesite Planting

We encourage families to install native plants on and around the graves of loved ones. This can be a great way to maintain a sense of connection while also helping to beautify the area, restore the native seedbank, and promote pollinators. As per PNB Rules and Regulations, only native, non-invasive species are permitted. Many native plants are still very showy and produce beautiful flowers or are otherwise attractive. Please note that we do not permit trees or shrubs to be planted in the burial ground, but we do allow tree donations for designated nearby areas. Small perennial plants are acceptable; please consult staff if you have questions about the permissibility of a given species.

While we are happy to advise in the process, families are ultimately responsible for the purchase, installation, and any required upkeep of these plants. Note: Newly installed plants often require regular watering if the weather is uncooperative. Unfortunately, we don't have the infrastructure to monitor and water individual plants, so families may wish to bring water with them or hire a gardener to handle this for them at least until the plants get established.

Local-genotype native plants are available from Hummingbird Hill Native Plant Nursery and Little Bluestem Nursery, and occasionally at a few other local plant nurseries. Simply mention that you are purchasing seedlings for a gravesite at PNB and the staff at these nurseries will help you choose the perfect plants.

Please be aware that we have many Black Walnut trees at Panorama, and that not all plants are able to thrive next to that species. If your loved one's grave is close to a Black Walnut tree, please let the nursery know that you are looking for walnut-tolerant species only.

The following plants are confirmed for planting in the burial ground, and many have already been installed as part of our ecosystem restoration project. There are certainly other species that are acceptable but are not on our list.

Please ask PNB or nursery staff if you would like to plant something not on the list.

Common Name	Botanical Name	Notes
Yarrow	<i>Achillea borealis</i>	full and partial sun
Common Black Cohosh	<i>Actaea racemosa</i>	shadiest areas only
Yellow Giant Hyssop	<i>Agastache nepetoides</i>	full and partial sun

<b>Common Name</b>	<b>Botanical Name</b>	<b>Notes</b>
White Snakeroot	<i>Ageratina altissima</i>	full and partial sun
Broomsedge	<i>Andropogon virginicus</i>	Grass species
Thimbleweed	<i>Anemone virginiana</i>	full and partial sun
Indian Hemp	<i>Apocynum cannabinum</i>	full and partial sun
Jack in the Pulpit	<i>Arisaema triphyllum</i>	shadiest areas only
Common Milkweed	<i>Asclepias syriaca</i>	walnut tolerant, full and partial sun
False Nettle	<i>Boehmeria cylindrica</i>	full and partial sun
Cut Leaf Toothwort	<i>Cardamine concatenata</i>	shadiest areas only
Eastern Narrow-leaved Sedge	<i>Carex amphibola</i>	Grass species
Sensitive Partridge Pea	<i>Chamaecrista nictitans</i>	full and partial sun
Enchanter's Nightshade	<i>Circaea canadensis</i>	shadiest areas only
Field Thistle	<i>Cirsium discolor</i>	biennial, walnut tolerant, full and partial sun
Wild Basil	<i>Clinopodium vulgare</i>	full and partial sun
Yellow Corydalis	<i>Corydalis flavula</i>	shadiest areas only
Hay scented fern	<i>Dennstaedtia punctilobula</i>	shadiest areas only
Perplexing Tick Trefoil	<i>Desmodium perplexum</i>	full and partial sun
Deer Tongue Grass	<i>Dichanthelium clandestinum</i>	Grass species
Carolina Elephant's Foot	<i>Elephantopus carolinianus</i>	full and partial sun
Bottlebrush Grass	<i>Elymus hystrix</i>	Grass species
Philadelphia Fleabane	<i>Erigeron philadelphicus</i>	full and partial sun
Tall Thoroughwort	<i>Eupatorium altissimum</i>	full and partial sun
White Wood Aster	<i>Eurybia divaricata</i>	shadiest areas only
Wild Strawberry	<i>Fragaria virginiana</i>	full and partial sun
White Avens	<i>Geum canadense</i>	full and partial sun

<b>Common Name</b>	<b>Botanical Name</b>	<b>Notes</b>
Spotted St. John's Wort	<i>Hypericum punctatum</i>	full and partial sun
Path Rush	<i>Juncus tenuis</i>	Grass species
White Cutgrass	<i>Leersia virginica</i>	Grass species
Indian Tobacco	<i>Lobelia inflata</i>	Annual, full and partial sun
Fringed Loosestrife	<i>Lysimachia ciliata</i>	full and partial sun
Solomon's Plume	<i>Maianthemum racemosum</i>	shadiest areas only
Tall Rattlesnake Root	<i>Nabalus altissimus</i>	shadiest areas only
Common Evening Primrose	<i>Oenothera biennis</i>	Biennial, full and partial sun
Aniseroot	<i>Osmorhiza longistylis</i>	shadiest areas only
Jumpseed	<i>Persicaria virginiana</i>	shadiest areas only
Mayapple	<i>Podophyllum peltatum</i>	shadiest areas only
Christmas fern	<i>Polystichum acrostichoides</i>	shadiest areas only
Self Heal	<i>Prunella vulgaris</i>	full and partial sun
Slender Mountain Mint	<i>Pycnathemum tenuifolium</i>	full and partial sun
Carolina Wild Petunia	<i>Ruellia caroliniensis</i>	full and partial sun
Lyre Leaf Sage	<i>Salvia lyrata</i>	full and partial sun
Maryland Wild Senna	<i>Senna marilandica</i>	full and partial sun
Whorled Rosinweed	<i>Siliphium asteriscus</i>	full and partial sun
Narrow Leaved Blue Eyed Grass	<i>Sisyrinchium angustifolium</i>	full and partial sun
Tall Goldenrod	<i>Solidago altissima</i>	full and partial sun
Blue Stemmed Goldenrod	<i>Solidago caesia</i>	full and partial sun
Grey Goldenrod	<i>Solidago nemoralis</i>	full and partial sun
Wrinkle Leaf Goldenrod	<i>Solidago rugosa</i>	full and partial sun
Star Chickweed	<i>Stellaria pubera</i>	shadiest areas only
Calico Aster	<i>Symphotricum lateriflorum</i>	full and partial sun

<b>Common Name</b>	<b>Botanical Name</b>	<b>Notes</b>
Purpletop	<i>Tridens flavus</i>	Grass species
Wingstem	<i>Verbesina alternifolia</i>	full and partial sun
Yellow Crownbeard	<i>Verbesina occidentalis</i>	full and partial sun
Common Blue Violet	<i>Viola sororia</i>	full and partial sun
