

Upon learning of the creation of Panorama Natural Burial, we knew we had found the best final resting place for our 21 month old daughter's remains that had been interred 30 years prior in a traditional coffin and vault cemetery elsewhere. As bereft parents, Panorama Natural Burial has provided the perfect blend of compassion and beauty for our continually-healing broken hearts. The caring by the Panorama staff, their full and open lines of communication, and their welcoming inclusivity has convinced us that we made the correct decision in choosing Panorama for her and eventually our final resting places. We smile at the expanding native flowers we planted where our daughter now rests. We have enjoyed comforting and informative events and volunteer opportunities on Panorama's natural grounds. We are content at Panorama — for all time.

Gary and Pam, Earlysville, Virginia
